

GUIDELINES

To send an application to the Norwegian Photographic Fund (Nofoyo), the applicant needs to have a user/create a user in the portal <https://soknad.nofoyo-fff.no/>. On this platform you are able to submit your applications and reports (if you have receiving funding in the past). You can edit your application until the very deadline under 'Mine Søknader'. When the deadline has passed your application will automatically be sent.

Be aware that you need to submit a report if you have previously received funding before submitting a new application. The report is to be delivered in on the fund's platform.

PROJECT DESCRIPTION

The application should contain a description of what you are applying support for, with a clear timeline for the project. The description should be short and concise and explain what the funding will go to, what the project is generally about and the time for start/finish. Also explain how the designated project serves as a relevance for the photographic and camera-based art scene. The text is written in its own box in the application form.

Max. 4000 letters.
